

## Web Developer

Datong Electronics is a leading supplier of electronic surveillance equipment and software. We are currently looking to recruit a talented and experienced Software Developer to join our Leeds based development group of 24 engineers. Multi-disciplinary project teams are used to develop innovative products for international markets. Working within a small company provides experience of all stages of the product lifecycle.

Possessing an honours degree in a relevant subject, the candidate will be a self starter with excellent technical experience and motivation. The role will involve the development of Web based systems for remote monitoring applications. A strong background in web technologies is essential. Experience with geo-referenced information or mapping would be advantageous.

Most important is an enthusiasm for new technologies and an ability to learn quickly and contribute in a fast moving, innovative team environment.

Essential experience:

- 4+ years relevant commercial software development
- 2+ years C# / ASP.net
- 2+ years Web Development
- e-commerce site development and roll-out
- Wide knowledge of Web technologies

Beneficial experience:

- GIS or Web Mapping

Datong offers an attractive benefits package for the right candidate including:

- 25 days holiday, increasing with length of service
- Stakeholder pension after 3 months (company matches contribution 3-5%)
- Optional health cover after two years
- Life assurance
- Annual bonus based on company performance
- Gym contribution of up to £20 per month

Salary: tbc

Successful candidate will ultimately require security clearance for which British Nationality is required.
